

Housing Compatibility Committee

Agenda

April 9th, 2007

7 pm; Sweet Library

The agenda will be open to modification but at this time the primary issues I anticipate dealing with are the following:

1. Sub-divisions and/or the creation of a zoning overlay to protect the SR-1A area north of 11th Avenue – possibly including the elimination of new twin homes and condos in this area.
2. Federal Heights subdivision and Historic District issues
3. Update on housing issues; HLC – financial hardship, Bryant/Univ CCand UHF cinference.
4. Revision of the Housing web-page (review current design)
5. Detailed Review of District Three Infill Workgroup Recommendations to Planning
6. Vulnerability of elderly to predatory developers!
7. Master Plan – where does it stand and where do we want to go with it at this time?
 - o Zoning
8. Traffic
9. Open Space
10. Tracking Permit Applications
11. Enforcement

Let me know if you have any comments or suggestions.
